STEAM CABINS AND SHOWER SOLUTIONS

INDIVIDUAL, INNOVATIVE, FAST AND SIMPLE

YOUR VERY OWN PRIVATE OASIS OF WELL-BEING

Perfectly tailored to your needs

Step back from everyday life and walk into your own luxurious well-being experience: you're only a few steps away. Enjoy your very own private spa in your own shower with all your senses. Switch off and give yourself over to complete relaxation.

Allow the stimulating effect of the water, the unique feel of the steam bath with gentle sounds to reflect your mood, and a lighting scheme, to transform the care of your body and mind into the highlight of your day.

You may think that a total concept of well-being, such as this, would be complex to operate and difficult to provide? Nothing could be further from the truth!

Discover the innovative, compact and simple solution offered by the GROHE and SCHEDEL brands, known for their top quality and professionalism. Together we have developed a compact concept precisely coordinated to your needs and requirements, as well as to the layout of your home.

We have put together three different versions for your private spa to simplify your selection process. All the solutions stand out on account of their maximum functionality, trailblazing design, proven and advanced technologies and the knowledge and expertise to make your dreams a reality with craftsmanlike precision.

The GROHE SPA® collections with high-quality faucets, showers and accessories, as well as innovative light, sound and steam modules, form a perfect symbiosis with SCHEDEL'S design possibilities and interior architecture.

Choose your own personal spa – together with a skilled tradesman you trust, we will look after every stage of the planning and installation process, from start to finish. Simple, reliable, made-to-measure.

GROHE & SCHEDEL

A perfect partnership for your luxury bathroom

Take advantage of the partnership between two renowned bathroom installation professionals to ensure that your personal oasis of well-being quickly becomes a place of rest and relaxation in your own home.

GROHE SPA® is the high-end bathroom products range that ticks every box. Faucets for washbasins, showers and bathtubs in a range of different styles combine expressive designs with high-grade finishes, materials and outstanding functionality. They are available in a range of models to ensure that they perfectly match your interior. Apart from their proven operation with basin mixers and thermostats, digital controls provide the ultimate in comfort, as well as many additional functions, like storage and call-up of your personal settings when using the spa.

Hand, head and side showers using the latest GROHE technology deliver the ultimate experience and a completely new encounter with water. A wide range of spray patterns intensify the invigorating or calming power of the water, depending on your mood and the time of day. Selected lifestyle accessories harmoniously complete the range of faucets and showers and create stylish features – including luxury body care products and room fragrances, the aromas of which are guaranteed to beguile and indulge the senses.

The unique GROHE SPA® experience is completed by modern light, sound and steam modules: simply select the music you wish for this particular moment via Bluetooth or app on your tablet or smartphone and bathe your spa zone in the light that best suits your mood. Appreciate regeneration in its purest form with the GROHE steam module: fine water vapour intensifies the cleaning ritual, at the same time as enhancing your well-being.

SCHEDEL Bath+Design will design an individual and creative backdrop to your oasis of well-being: the **MULTISTAR®** range delivers versatile bathroom design, taking into account your individual requests. Whether linear or curved – the design incorporates your fit-out specification utilising a concept to maximise the available space for your relaxation zone. The modular base, wall and ceiling elements, with concealed fittings and vapour barrier fitted on site, guarantee clean assembly in your own home in the shortest possible time. The use of state-of-the-art drainage technology in the base element guarantee safety at all times. The modules with factory-fitted vapour barrier provide design freedom when it comes to tiles, plaster or paint without prior drying and waiting times.

We have put together three made-to-measure solutions for you in sizes S, M and L from our wide range of options. Simply select the right model for your private spa to meet your individual needs.

PURE AND SIMPLE COMFORT & RELAXATION

Maximum showering comfort starts with simple and reliable operation: as with the other two spa packages, high-quality GROHE thermostatic technology is used here, which maintains the water at a constant pre-set temperature and protects users from unpleasant surprises even when the pressure drops or if the cold water supply fails. GROHE F-digital Deluxe controllers simplify the setting of the water temperature to meet your personal needs. Two light modules for individual chromotherapy and two sound modules for your personal playlist create the perfect atmosphere for an invigorating or relaxing showering ex-

perience. Simply use your smartphone or tablet to alter the ambience of your oasis of well-being to your mood using Bluetooth and the GROHE SPA® app. GROHE products and SCHEDEL elements are perfectly coordinated to each other – for absolute precision, safe installation and a short assembly time. Experience the luxury of a spa shower in even the smallest of spaces. A range of different seats provide enhanced comfort.

Suggested design

Ceiling element prefabricated for integration of ceiling shower, coloured light and sound

80 mm rigid foam system shower walls with attached vapour barrier with installed concealed box and integral pipework for installations

Seats from the SCHEDEL range

Integral reinforcement for shower door assembly

FINE STEAM FOR PERFECT REGENERATION

A lavishly sized head shower with integral light, a hand shower and six side showers deliver a wealth of opportunities for starting the day enjoyably and drawing the day to a relaxing close in the evening. The well-being showers are harmoniously enhanced with the appropriate music, to suit your mood – whatever you wish. Your recovery is enhanced with fine steam from the high-performance GROHE module: your pores open up, your body is detoxified, your

skin is supplied with moisture and your muscles relax. As the key elements of your steam shower – the concealed fittings and vapour barrier – are already pre-fitted in SCHEDEL'S factory, the shower can be fitted in your home in a very short space of time. Specially trained skilled personnel look after precise site measurements as well as the installation service.

Suggested design

Ceiling element prefabricated for integration of sound and ceiling shower with coloured light

80 mm rigid foam system shower walls with installed vapour barrier, with installed concealed box and integral pipework for installations

Integral reinforcement for shower door assembly

Seat from the SCHEDEL range

Rigid foam system shower element with integral gradient (Figure shows version with wall drain incorporated in the seat)

Base element

- 6 side showers
- 4 light modules
- 2 sound modules
- 6.6. kW steam generator
- Base unit box
- Bluetooth unit
- Rough-in sets for each module, wall union, shower holder

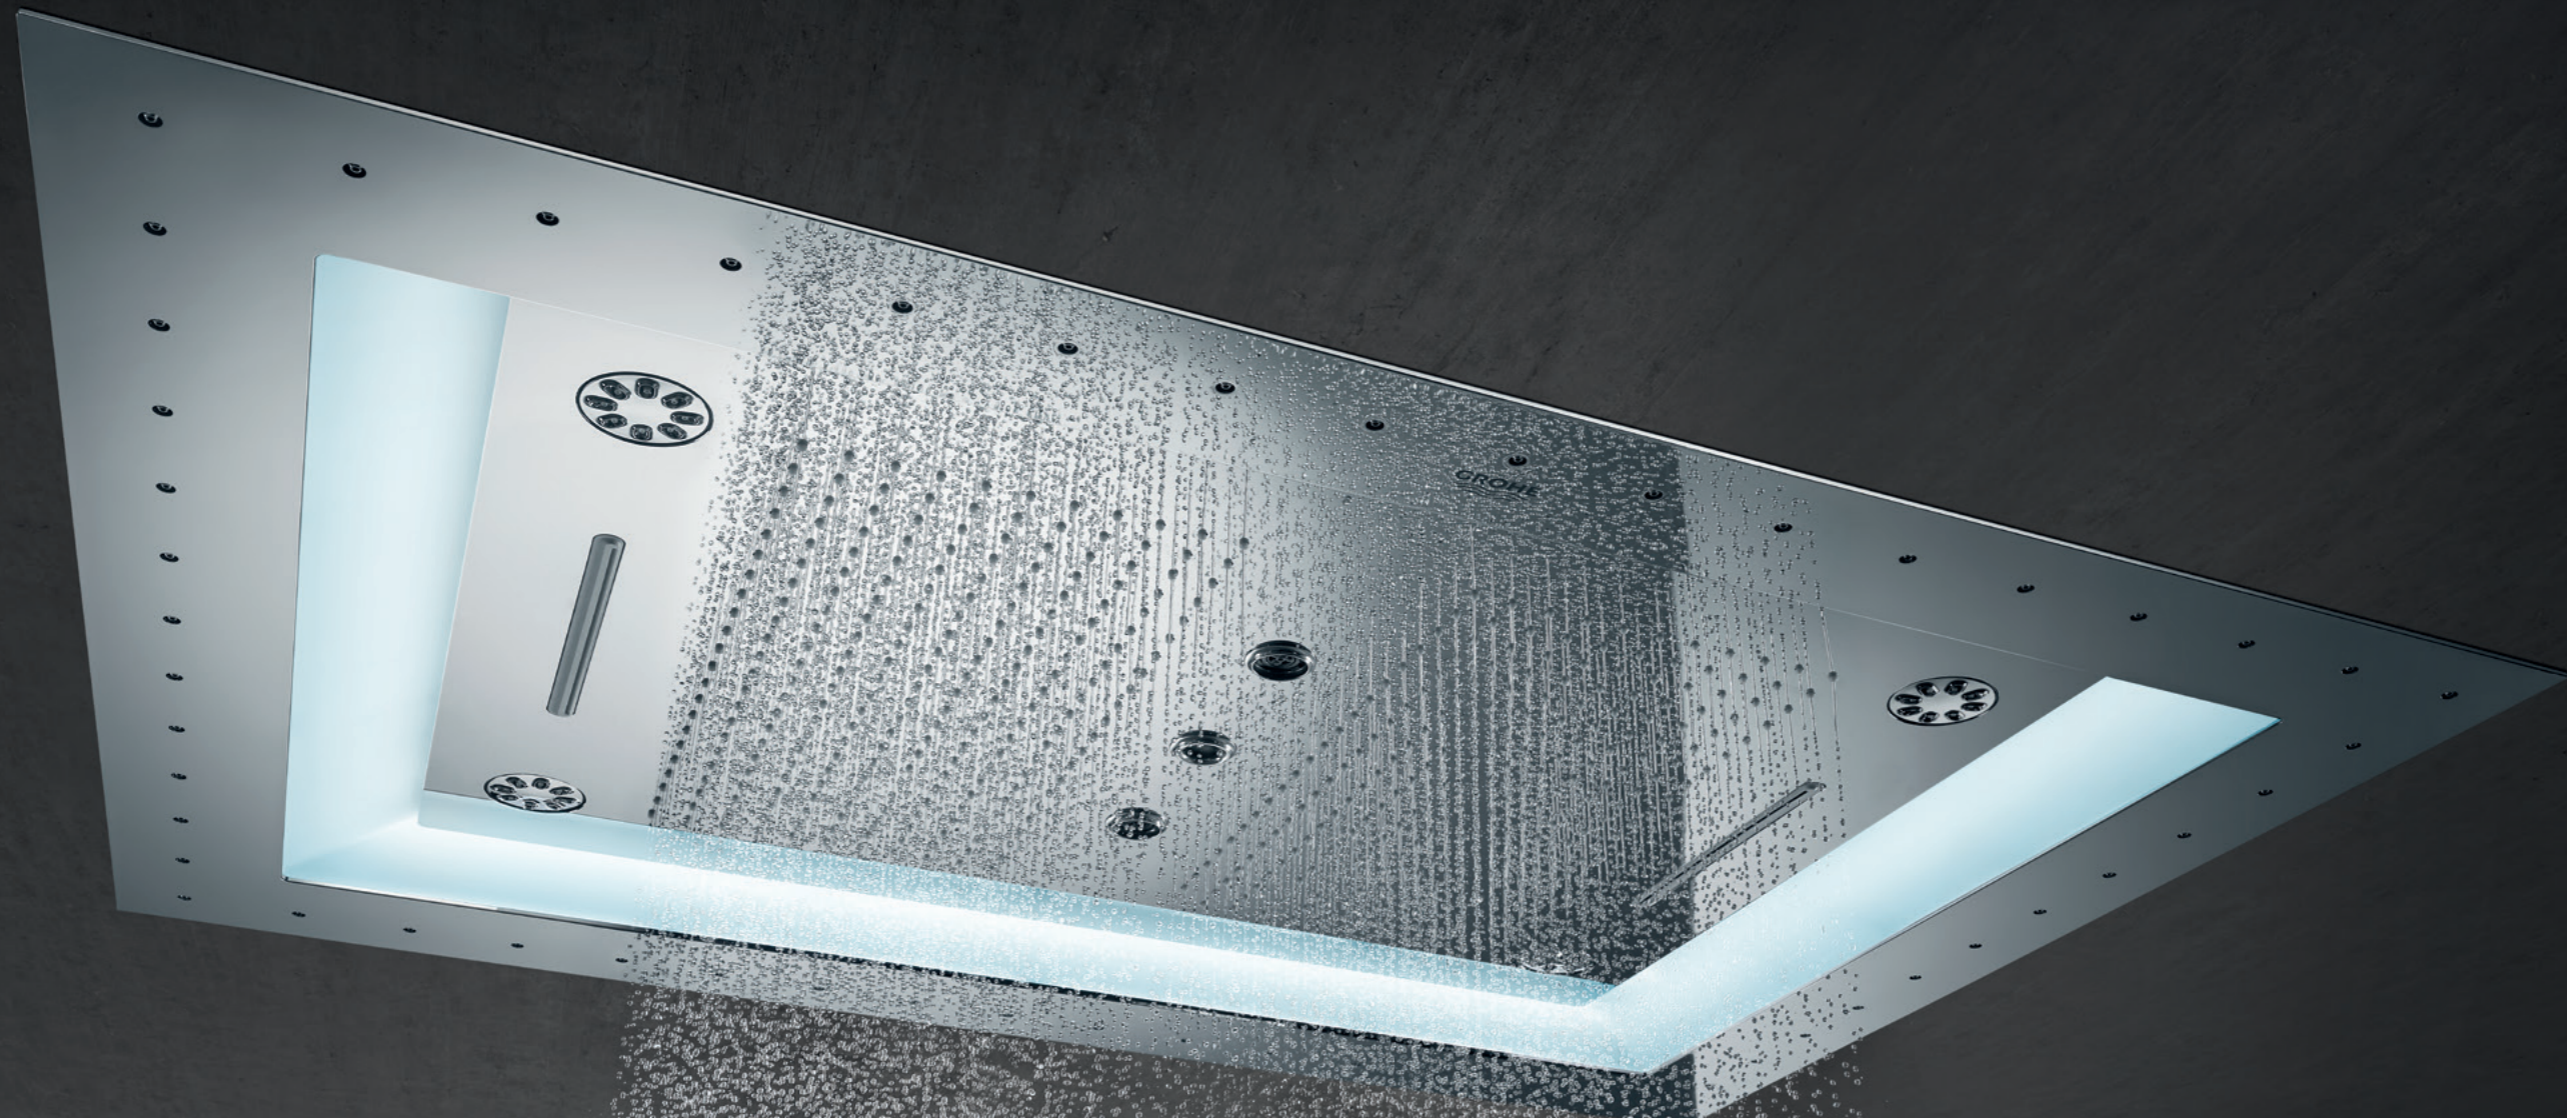

THE ULTIMATE ALL-ROUND EXPERIENCE

Whether rain shower, cascade or Bokoma spray: the head shower alone offers a wide range of spray patterns. There are also six additional side showers and a Sena hand shower to complete the total pampering effect. The unique feature of this arrangement: the parallel arrangement of the central thermostats and diverters means that you have control of all showers at your fingertips. Enjoy them individually or combined – to suit your mood and needs.

High-performance GROHE TurboStat® technology guarantees the ultimate in comfort and ease of showering. There is also a high-grade steam module for a unique spa experience, light modules to create colourful feature effects and sound modules, bringing technical perfection and personal well-being into harmony with each other. Make even your most exacting design aspirations for the well-being zone in your own private spa a reality – simply and reliably with SCHEDEL solutions.

DAWN OF A NEW ERA OF SHOWERING

Much more than just a shower: with AquaSymphony, you are creating a space that brings water to life. Experience the breath-taking fascination of water every day anew, and enjoy AquaSymphony in your own personal oasis of wellness. With AquaSymphony you can enjoy water in all its forms and facets. Sometimes enticing like soft spray mist. Then roaring like a mighty waterfall. In every combination you can think of. Warm summer rain that cascades down on you in gentle droplets. The wonderful massage of

the Bokoma jet that melts away tension, or the gentle Pure XL jet, which washes away everyday stress like a fresh mountain spring. Spray jets awaken new life forces within you, with a fine spray mist that cools and refreshes. A curtain of colour creates the crowning finale of your shower symphony. Compose your own personal symphony from light, sound and steam.
